prohibiting the charging of higher rates of compensation for transporting the same kind and amount of property for shorter than for longer distances.

Senator Slater described the operation as a principle discriminating against "short hauls" and sufferings of western

communities in consequence. Cullom said the amendment was an important one, but in his opinion its adoption would result in disaster to the railroads.

Van Wyck favored Slater's amendment and cited illustrations of the discriminations practiced by railroads and the combinations made by companies to resist all attempts of the public to remedy the svil. Cullom said the adoption of Slater's amendment would seriously injure not only producers west, but consumers east. It would injure hundreds of thousands of people.

Van Wyck had often heard this state to be done for General Grant is to place him on the retired list with the rank and emoluments he was receiving when he left the army to assume the Presidency. Such a benefit he could consistently accept without experiencing the slightest sense of personal humiliation. It is to be hoped that Congress will act prompt.

Now we hope that this just and necessary measure will speedily go through in this respect, needs no special pleadof Southern California are entitled to the benefits of a United States Court, SPLENDID ASSORTMENT OF A NO located within reasonable distance of located within reasonable distance of their homes. Justice is too expensive for men of moderate means when they all kinds of old metals bought at No 9 have to travel five or six hundred miles to get it, as is the case at present. In behalf of all the people concerned in this measure, the Trmes asks Senator Delightful Health Resort Miller to use his powerful endeavors to secure the passage through the Senate WONDERFUL CLIMATE. of this bill.

We are waiting with breathless in terest to see the outcome of Tom Fitch's brilliant plan for breaking the dead-lock in the Senate. This oratorical son of thunder, with the argentiferous tongue, proposes to put our Del Valle and his "read-out" rival, Knight, into a sombrero together, shake them up, and then draw one of them out, "unsight, unseen," as the boys say when they swap jack-knives. The one drawn out to be voted for by the Republicans, grand, superhuman effort. The scheme is a beautiful one-but will the Repub licans adopt it for the purpose of elect ing a Democratic President pro tempore! Perish the thought!

We have a scheme for severing the Senatorial knot that is worth a dozen of old Silver Tongue's. Let the Radicals and the Read-outs agree to draw lots to determine who of their num shall die the death of a "traitor," for which they are mutually denouncing each other. And when the unlucky man is found, let him be taken out under the willows by the banks of the turbulent Sacramento, and there carefully, kindly and thoroughly killed in every respect, and his Senatoria corpus consigned to the yellow waves Then the Republicans, being in a majority of one, can organize the Senate

THE manly and womanly response of General and Mrs. Grant to Vander bilt's repeated proffers of financial aid are creditable to the first soldier and the good woman who is his honored wife. While avoiding any exhibition of churlishness in their letters declining Vanderbilt's generous offer to cancel the mortgage held by him, they at the same time exhibit a proper sense of gratitude, as well as of self-respect and independ ence, that the country will applaud in the General and his true wife. It is a happy outcome of General Grant's unfortunate financial troubles that his historic treasures-his swords and souvenirs-have been saved from the auction block, and will go to the Government ultimately, to be preserved in its archives as the most interesting objects in all its interesting collection.

Tus Ventura Signal, whose Demo racy and independence are both estab lished traits, seems to be dissatisfied with the Democratic half of the State Senate. It rises in its place, seizes the eye of Mr. Daggett, and addresses the Senate and all Democratic creation in words and figures of speech as follows, to-wit: "It is a very pretty fight. Nice. Very pretty-tor Republicans. And the Democracy of California is rapidly going to the devil." We have no doubt his Satanio Immensity has been expecting the Democracy of California this long while, and is even now wondering why they linger by the way among the green fields of the Golder State, instead of reporting for duty at headquarters in the sulphureous bye.

Galvanism, Electro-Magnetism, and other forms of electricity are now extensively employed in the best institutions of the world with the most flattering results. The Galvanic Chair is one of my own invention. And one of the best-constructed Erro-Magnetic Apparatus in use, with every necessary appliance for the treatment of various diseases. The patient receives no unpleasant shock, but a pleasant, soothing and steady current, which invigorates the whole system throughout. The chair is so constructed that I can give Hot Air, wigorates the whole system throughout. The chair is so constructed that I can give Hot Air, wigorates the whole system throughout. The chair is so constructed that I can give Hot Air, wigorated that I can give Hot Air, with the clean state of the state of the skin must be kept open or sickness and early death are sure to foollow. With my chair I can sweat the most delicate patients day after day, and give them strength from each application. I do away with all debilitated, oppressive sensations of heat and shock, rendering the feelings of the patient most delightful. I equalize the circulation and tone and strengthen the whole system, from the brain and applie, through all the nervous ramifications of the various vital organs. I do not debilitate my patients to promote a cure, but from the commencement invigorate them.

I have cured hundreds of cases supposed to be incurable, and with my apparatus have thrown many into ecstacles over the beneficial effects of my treatment. I have given many a neuralic sufferer occasion to rejoice, and have caused the haggard, downcast face of the dyspeptic to light up under the exhilerating effects of a vitalizing current of electricity sent down the pneumogastric nerve to the stomach, and I have caused many a rheumatic and paralytic to run and rejoice in the restoration of painful, contracted, stiff and withered limbs, and in all diseases I cause beneficial results which are wonderful. In making electricity as a therapeutic agent, I do not rely upon it to t For saie, a most valuable property, 10 acres of land; house of 7 rooms. barn, stable, well, windm ll, tank, chicken house, wood house, bearing grape vines, peaches and apples of the finest varieties, with other fruits. To the ladies I would say: You whose sufferings have become intolerable, and who have suffered a thousand deaths from those diseases so common to your sex, give me a call, for I can cure you without fail, and make your lives once again worth living for. And all consultations will be strictly private and confidential. YOUNG MEN.

To those young men who have suffered from year to year, and whose vital pewers have become impaired and nervous system unstrung and broken down, and are suffering all the horrors from the effects of youthful follies, come and see me. I have a sure preventative of premature decay and early death. To those who, from indiscretion, have contacted private diseases and are desirous of being cured, come without fail, for I can guarantee you see the surface of CONSULTATION FREE.

CONSULTATION FREE.

I invite the sick, no matter what their diseases may be, to call and investigate for themselves before abandoning all hope, for it will cost you nothing. I give no encouragement unless there is a fair prospect of making a cure. Livill endeavor to be candid in my opinion, and reasonable in my charges. I claim not to cure everybody, but to cure all that can be cured. I am formerly from New York City, and a graduate of one of the best medical colleges in the United States, and a most thorough Electrician, and have had many years successful practice in the treatment of both scute and chronic diseases. To remove all doubts and convince my patients that I claim nothing but what I am, I refer to my diploma and the numerous recommendations in my possession, which will always be ready for inspection at my office.

I have located permanently in this city, and all I ask is that you give me a fair, unbiased trial, by which I hope to merit your confidence and give entire satisfaction to all suffering humanity. My reputation has been acquired by candid, honest dealing, and years of successful practice. I know the cause and the remedy needed, not by guess-work, but by years of superience in the treatment of various diseases.

California's exhibits, the gentleman nought, were not sufficiently massed, some being a considerable distance from the main body of the exhibit. California has taken many prizes, however notably those on fruits and polished woods. Mr. Crocker predicted that when the present state of affairs is straightened out, the Exposition will come out all right and in the end be a grand success. A Berious Charge.

njero Jenkins makes a serion ge against A. Glassell, the owner o charge against A. Glassell, the owner of large tracts of land north and west of town. He states that Mr. Glassell has sunk a well a short distance from the reservoir embankment, and in a few months the effect of the well, which draws its supply from the reservoir, will be to cause the bank to cave, possibly turning all the water out when it is most needed. The Council will investigate the matter.

The annual statement of Wells, Fargo & Co. shows a total production, in the States and Territories west of the Missouri River, of gold, silver, copper and lead of the value of \$84,975,954. The value of gold was \$26,256,542; of silver, \$45,799,09; of copper, \$6,086,352; of lead, \$6,834,091. The product of California is valued at \$15,272,988, of which \$12,282,471 is gold. The decline in the gold product for the last year is \$944,708; the increase in silver, \$513,597. Nevada shows a slight increase, while in Colorado and Arizona there is a decrease from 1883. Colorado is at the head of the mineral States with \$20,255,749, with California second in rank; Montana third, with a production of \$11,862,000; Nevada fourth, with \$8,888,939; Arizona fifth, with \$7,389,836. The tabulated statement of mineral production since 1870 shows a gradual rise from that date to 1877, and a steady decline from that date to 1877, and a steady decline from that date to 1877, and a steady decline from that date to 1877, and a steady decline from that date to 1871, and a steady decline from that date to 1871, and a steady decline from that date to 1874, and a steady decline from that date to 1874, and a steady decline from that date to 1884. The product last year was \$3,000,000 less than in 1870, and about \$19,000,000 less than in 1870, and about \$19,000,

in 1884. The highest product was in 1882, when it reached \$48,133,039. An Appropriation for Californiat New Orleans.

S. P. R. R. Co. vs. El. COMPOUND OXYCEN.

COMPOUND OXYCEN.

THIS MEANS (1) OXYCEN, THE VITAL olement of the air, without which no life can exist for a moment; (2) Mirogen, the conservative and preservative element; (3) Magnetism, with which the O and the N are sclentifically combined and intensified. And this gives us a curative agest without an equal, that contains three life-giving and health-preserving elements of nature's own selection and of universal application. A poet has named it, "Nature's Triple Elixir of Life," and a doctor has styled it, "Nature's Own Remedy for Many Diseases." It differs from medicines, (1) In that it is not a medicine in any sense, any more than the air we breathe or the electric fluid; (2) It differs from medicine in that, being inhaled into the lungs, it is absorbed directly by the blood and cures by a natural process of revitalization and cleansing; (3) It differs from medicine in that its sphere of action is universal, thus adapting it, as the reader will see, to most diseases of the human body; (4) It differs from all medicines or other remedies in that it has cured 75 persons out of every 100 who have taken it. It cannot cure, of course, where there is nothing to build upon. As thousands have testified, it cures asthms, Bron hitis, Catarrh, Consumption, Nervous Exhaustion, Parslysie, and other nervous and wasting diseases, not to mention Scrofula. Dyspepsia, Neuralgia, Bheumatism, Female Diseases, Headsche, Vertigo, etc., etc.

It affords us pleasure, therefore, to say to physicians and sufferers that Compound Oxygen is now manufactured at Los Angeles, Cai, the only place on Pacific Coast by Prof. N. L. Rigby, Ph. B., and treatments are furnished upon prescription or application.

> When it comes to iron, the country through which the Queen and Crescent runs deserves more than passing attention. The country has been pretty well apprised of the advantages which the south enjoys over all other iron-producing sections, and this is shown quite conclusively in the Alabama section of the Queen and Crescent exhibit. The manufacturers of the North have been failing on iron at \$17 to the ton, and do not yet see that Birmingham and other Southern iron points can make it at less than \$10 per ton. Yet that is the point and the index to all this Southern movement, whether in iron, or cotton, or what not. The center of gravitation for a number of industries that has been North for a cen-

In Los Angeles city, a place where ladies and gentlemen can go out driving during this rainy weather without danger of getting stuck in the mad; a place where those in search of healthy locations for homes may select their locations at once, without having to wait six months to do ao; a place where the altitude is sufficient to bar all malarial diseases, and where a beat will not be required to got to and from the street cars during the rainy season; a place where the drainage is excellent, and where one can have a splendid view of the surrounding country, enjoy the beautiful sunshine and breathe the pure arr directfrom the ocean; a place where residence lots may be had at this time at a very low figure, but where, in a few years from now, for the reasons mentioned above, they will command a much higher price than lots in any other part of the city the same distance out.

All persons in search of desirable locations for homes at reasonable prices, and who desire to locate in a good neighborhood where the improvements so far are first-class, will find it to their interest to thoroughly examine the residence property on the west side of Soto street, between Aliso avenue and Brooklin street, known as the "Breed tract." The Boyle Heights line of street cars run by the tract every half hour. Carriages will not be in waiting to convey parties over the tract. neither will there be a free lunch spread for them, but the streets will be found dry, the atmosphere pure, and the view from the hill such as ought to repay anyone for their trouble, whether they purchase a lot or not. The owner of these lots proposes to sell them on their merits alone. Hence, no chromes will be presented to purchasers.
